

Life Cycle Sustainability assessment of BeonNAT products

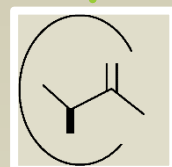

BeonNAT bio-based products studied

Essential oils

Vegetal extract

Lactic Acid

Bioplastics

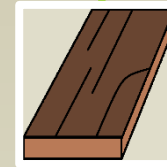

Coal

Activated Carbon

Absorbents for pets

Particle board

Tissue paper

Life Cycle Assessment

Most relevant environmental impact categories:

Climate change

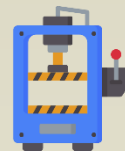

Use of fossil resources

Land use

Life Cycle Costing

Most relevant costs:

Equipment

Worker cost

Social Life Cycle Assessment

Most relevant social impacts:

Health and safety
